

# JEENA THOMAS

Full Stack Intern

@ [jeenathomas53@gmail.com](mailto:jeenathomas53@gmail.com)

☎ (+91) 8590941365

📍 Kollam,Kerala,India

## PROFESSIONAL SUMMARY

To work for an organization that provides me the opportunity to improve my skills and knowledge to grow alongside the organization's objectives. Seeking an internship opportunity to further develop skills, gain valuable industry insights, and contribute effectively to the company while embracing new challenges and learning opportunities.

## PROJECTS

### OTT-Streaming Platform mernstack

CineStream is an OTT streaming platform where users can browse and watch movies seamlessly. Admins can manage content, users, and track movie view counts efficiently. Users can register, log in, create watchlists, and view their watch history. The platform ensures a smooth and engaging streaming experience for all.

### CinemaTicket Management System html, css, bootstrap,php, codeigniter

Managed an online platform for movie ticket reservations, offering a convenient, streamlined experience, integrating multiple theater chains, real-time seat availability, pricing, and promotions.

### Bakery Management System html, css, bootstrap,php, smarty

Managed an online home bakery delivering high-quality,homemade baked goods,including cookies cakes, cupcakes, and artisan bread, using time-honored recipes and locally sourced ingredients.

## INTERNSHIPS

### Mashupstack-Trivandrum MERN-Stack

- Utilized MongoDB, Express, React, and Node.js for responsive web applications.
- Developed MongoDB for data modeling, querying, and optimization of database operations.
- Developed dynamic, user-friendly interfaces using React , leveraging component based architecture and modern JavaScript.
